PALSYNERGY®

More capabilities. More control.

MICROAIRE

PAL SYNERGY®

More capabilities. More control.

PAL Synergy® gives you more control of your devices.

Run the infiltration and aspiration pumps using the multi-functional foot pedal or control them directly from your PAL Handpiece. Seamlessly transition between infiltration and aspiration without relying on additional hands.

PAL® Liposuction Canisters PAL-SC-2000 | PAL-SC-3000

- Made with lipid-resistant materials
- 29 inHg (736 mmHg) vacuum pressure rating

Infiltration Pump

- Average max flow rate: 1,155 mL/min

Cart

- Footprint: 28.2" x 27.2" (71.6 cm x 69.1 cm)
- Height (without poles): 39.2" (99.6 cm)

PAL® Console | 7020

Enables full system integration with connection points for:

- 2 PAL handpieces
- 2 multi-functional foot pedals
- Aspiration and infiltration pumps

Aspiration Pump

- Pump type: 1/3 horsepower, rocking piston
- Powerful vacuum pressure: >29 inHg (>736 mmHg)
- Quiet operation: 56.8 dB
- Customizable preset pressure button
- Internal fluid sensor and catch canister to prevent motor damage

System reverse view

- Color-coded connections for easy setup
- Single cord-to-wall plug powers the entire system⁴

4. When used with three power cord jumpers (ASP-CORD)

Multi-Functional Foot Pedal

- Select foot pedal mode and use the pedal to activate pumps
- Select PAL mode and use the pedal to select a pump for PAL handpiece activation
